Equities Market Summary

The Nigerian equities market sustained its bullish momentum on Thursday, with the NGX All-Share Index gaining 0.12% to close at 245,209.34 points, pushing the year-to-date return to +57.58% and adding ₦191.77 billion to market capitalization, which closed at ₦158.29 trillion. Investor sentiment was negative at a market breadth of 0.6x, as 35 decliners led by FTGINSURE, ETI, CHELLARAMS, THOMASWY, and UPDC outpaced 22 advancers, with ETERNA, AVACAP, LEGENDINT, FCMB, and HONYFLOUR recording the most notable gains. Sectoral performance was divergent, as Banking (+0.62%), Consumer Goods (+0.15%), and Oil & Gas (+0.06%) all closed in positive territory, while Insurance (-0.93%) weighed on the index and the Commodity and Industrial sectors ended relatively flat. Trading activity weakened across the board, with volume, turnover, and deal count declining 35.47%, 19.68%, and 6.83% to 531.77 million shares, ₦20.46 billion, and 44,826 transactions respectively. Looking ahead, the market is expected to sustain its bullish trend as investor sentiment tilts increasingly positive, though residual profit-taking activity could temper the pace of any recovery.

Money Market

Nigerian Interbank Offered Rates posted a mixed performance on Thursday as tight system liquidity drove the overnight rate up 5bps to 22.25%. Conversely, the 1-month, 3-month, and 6-month tenors dropped by 19bps, 26bps, and 40bps, respectively. Funding conditions experienced a slight split, as the Overnight rate slipped 2bps to 22.10% while the Open Repo rate remained unchanged at 22.00%.

Meanwhile, yields in the Treasury Bills secondary market rose across individual tenors, with the 1-month, 3-month, 6-month, and 12-month papers advancing by 1bp, 1bp, 7bps, and 1bp, respectively. Nevertheless, persistent overall buying momentum helped pull the average NT-Bills yield down by 1bp to settle at 18.10%, maintaining a bullish sentiment across the space.

Bond Market

The domestic fixed-income market reversed direction on Thursday to close on a bearish note, as softening local buying pressure pushed average FGN Bond yields up by 1bp to settle at 16.80%.

Similarly, the Eurobond market snapped its recent rally, with average yields climbing 3bps to 6.92%. This pullback pointed to waning offshore interest and cooler international demand for Nigeria's sovereign dollar debt.

Foreign Exchange Market

The naira turned in a mixed performance on Thursday, easing slightly by 0.08% to settle at ₦1,364.88/\$ at the official NAFEM window while rebounding 0.314% in the parallel market to close at ₦1,389/\$.
